Téléthon
7 ET 8 DECEMBRE 2007
LE GRAND VIRAGE DES TRAITEMENTS, C'EST MAINTENANT

Sunday 9 December 2007

96 228 136 euros

One more week for the great turning point for treatments to succeed

On behalf of patients and their families, the AFM would like to express its deepest gratitude to all those who once again have given it their support. Despite difficult weather conditions, the French people did not fail to mobilise.

At a time when innovative therapies are undergoing their first trials on humans, the AFM is more than ever determined in its combat against disease. Though substantial, the income from this 21st Téléthon, could nevertheless slow down the development of treatments.*

Behind the Téléthon there is the future of patients, the hope of families and the progress of researchers. That's why the coming week is decisive. So the AFM is keeping open its donation line (3637) until next Friday, and reminds donors that it's also possible to make a donation through the Internet.

This year, continuing the mobilisation and fulfilling donation promises are more than ever necessary.**

The AFM and French television channels would like to thank all of those who have taken part in this 21st Téléthon, especially:

* comedian **Kad Merad** and singer **Liane Foly**
- television personalities **Sophie Davant** and **Nagui**, the artists, journalists and technicians of *France Télévisions*

* The Téléthon 2006 figure was: 101 472 581 donation promises
